1. What is Medical Coin?

- Medical Coin is a stable coin, yielding an average return rate of approximately 48% per annum. Approximately 4% monthly.
- Medical Coin is the latest stable cryptocurrency that raises their money by selling medical supplies. The credit facility backing the coin will provide liquidity for the purchase and acquisition by medical facilities and hospitals by applying Credit Lines by the banks and financial institutions.
- We are backing each coin with a manufacturing facility and equipment that gives physical value and not just virtual or paper coins. By investing the coin we will have access locations for the supplies to majority of our clients for their supplies
- Medical Coin helps to build an eco-friendly environment. This by for example making their own energy by solar panels and collaborating with eco-friendly partners in the medical and financial industry.

2. Why invest in Medical Coin?

Problems with other coins.

A majority of crypto currency and investments are based on financial models, based on technology and not realistic world products or services.

- Medical Giants dominate the industry and not allow small businesses and individuals to invest in the medical field because of inclusiveness.
- In the cryptocurrency market majority coins and token focus only on profit without basis on a brick and mortar physical capabilities.

Solution (Medical Coin approach)

We have the most practical investment focused primarily in the Medical Industry Supply for PPE and Pre-Post Covid supplies, like gloves, masks, disinfectants and others.

Market based on manufacturing of Medical Supplies and inventory needed by almost any country and medical facilities and hospitals.

3. Business model validation.

What do we do: providing personal protective equipment to major hospitals.

Why: during and after the pandemic, the cost of shipping increased and lesser suppliers focused on one or two sources in Asia to get their medical supplies.

Asian production company	shipping time	shipping cost / container
	30-45 days	\$13,698

Solution: our medical facility in Spain

Medi Glove partner of Medical Coin	shipping time	transport cost / full truck
	7 days	around \$5000

4. Medical Coin validation.

What will our company be worth now that we have a performing medical investment utility available for businesses and individuals?

Our company will be backed with seed capital of 5 million dollars.

Our business plan:

- How can we provide this utility and crypto coin to the early investors, how much will it cost?
- What's the expected ROI when you're investing \$100 to the pre-sale offering?
- How long does Medical Coin can produce guaranteed results for a long-term investment of 5 years?

5. How do you earn money?

100 USD purchase of Medical Coin you will earn at least 48 dollars approximately.

1 Medical Coin = \$ 100,00

ROI in 1 Year = \$ 48,00

Amount	\$ 100,00	\$ 1000,00	\$ 10.000,00	\$ 100.000,00
Annual profit	\$ 48,00	\$ 480,00	\$ 4800,00	\$ 48.000,00

Why is Medical Coin a good choice?

- The rent is better than any bank is providing for your savings or certificate of deposits. What usually is around 1-2 percent Annually.
- The rent is better than a house appreciating, which is around 4% Annually.
- The rent is better than Mutual Funds yielding, which is around 7% - 20% Annually
